Fourteen years on transaction systems. I describe tools by what they do rather than by name.
Contract work, so short engagements with a handover month are normal.

EXPERIENCE

Backend Contractor, Ferrymead Ltd (Feb 2022 - Jul 2022) - Contract.

- Rebuilt the settlement path on the relational store the team standardised on, behind the resource-oriented HTTP interface the partners consume.

Backend Contractor, Cobalt Union (Jun 2022 - Nov 2022) - Contract.

- Similar migration for a different client: the container orchestration layer, declarative infrastructure, one month of overlap for handover.

Backend Contractor, various (2010 - 2022) - Contract.

- Long-running work on the language the industry standardised on since the 2.x days.

EDUCATION

HND Software Engineering, Leeds Beckett, 2010
